## INSTALLATION INSTRUCTIONS FOR THE VENDAVOLT 110~120V & 220~240V LAUNDRY WASHER/DRYER VISA & MASTERCARD CELL PHONE APP TIMER VENDING PAYMENT SYSTEM

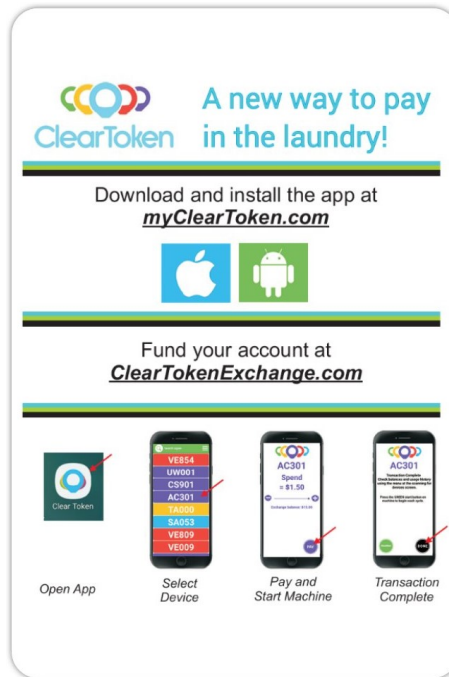

1. **FOR INSTALLING ON NON-COIN OPERATED WASHERS OR DRYERS:** Place the VendaVolt in the rear of the washer or dryer. Optionally mount the VendaVolt on the back of the machine or wall within a proximity of the washer or dryer. Should be within 6 feet of a 110~120 or a 220~240-volt grounded outlet.

2. Plug in the power cord of the washer or dryer into the VendaVolt Outlet. Secure the power cord plug with the rubber protected "U" clamp and security screw. Last step is to plug in the VendaVolt power cord plug into the mating outlet source for 110~120V or 220~240V. Use a "Loctite" adhesive on the metal pins of the plug to ensure the plug can not be removed from the outlet without management authorization.

3. **TESTING OF THE CLEAR TOKEN CELL PHONE PAYMENT APP:** Download the Clear Token App per the below instructions.

Make payment to test the VendaVolt Clear Token Cell Phone App. Average time for a wash varies from 40 – 50 minutes for all settings at normal on a standard commercial washer. Dryers can be whatever cycle time is acceptable to complete a dry cycle. Timing can be configured for whatever is acceptable for the dryer cycle.

**INSTALLING TO A COIN DROP OR COIN SLIDE MECHANISM:** Open the top door of the coin housing enclosure. Move the white or red wire on the coin slide switch from Normally Open to Normally Closed. On "Coin Drop" models configure the washer/dryer setup configuration to "Free Vend". Replace the top door of the coin housing enclosure. Follow 1 – 3 above to complete the installation.

**The Clear Token Dashboard:** Clear Token Dashboard will be sent to you after registration is received by Clear Token Inc., 2149 S. Grape Street, Denver, CO 80222. [1] 403-759-4276
